Assumptions :

This is based upon a lease with 5 guys on a 5000 acre lease in West Texas
 This is an assumption that there will be 6 blinds put on the lease at \$400/blind
 There will be 6 feeders put up at \$100/feeder
 Each feeder will be filled up twice between June and January at a rate of 500 lbs per feeder.
 The total amount of corn for the year will be 3000 lbs
 and the cost of corn per 50 lbs sack will be \$7 (the current rate)
 Fuel, Food and Drink were an estimated number
 We are also assuming that there will be a cheap travel trailer bought so that the hunters will be able to stay at the lease during hunting months
 Each Lease hunter also has to invest time in preparing the lease, filling feeders, setting blind locations, and scouting

Assumptions from SRO :

Your hunt is in a "Hassel Free" environment.
 You do not have to worry about checking feeders, worrying about blinds being blown over before your hunt, cows knocking over feeders, or your truck not starting the morning you are to leave hunt your lease.
 We take care of everything for you ! All you have to do is show up and hunt, spend time on the backporch with your buddies and tell stories of the days hunt
